subjects

Adolescents: see also Children in sports
football helmet reconditioning standards questioned, Oct, p 101
football injury update for 1979, Oct, p 53
hypertension in a 16-year-old football player, Oct, p 117
injuries in interscholastic wrestling, Mar, p 111
injuries in junior ice hockey, Feb, p 81
the physician's role in school sports programs, Sep, p 67
sportsmedicine care in Chicago-area high schools, Feb, p 95
the supervision loop in sport, May, p 109

Aerobic exercise: see Exercise
Aging: see also Older athletes
elderly benefit from light exercise, Sep, p 19
hazards of snow shoveling, Dec, p 40
walking for fitness, Sep, p 24
Aikido
a comparison of judo and aikido injuries, Jun, p 71
Allergy: see also Anaphylaxis, Asthma
insect allergy and the sportsman, Mar, p 124
synthetic skin used instead of tape in sensitive athletes, Dec, p 15
Altitude: see also Mountain climbing
ACSM studies confirm training protocols, Jul, p 16
American Academy of Sports Physicians
report on first meeting, Mar, p 29
American Alliance of Health, Physical Education, Recreation, and Dance
implements new health/fitness test, Jun, p 27
American College of Sports Medicine
announces certification exams, Feb, p 22
1980 annual meeting, Apr, p 25
American College of Sports Medicine Position Statements
the female athlete in long-distance running, Jan, p 135
American Volkssport Association
walking for fitness, Sep, p 26
Anaerobic threshold
measurement simplified, Jul, p 15
Anaphylaxis
exercise-induced, Jan, p 95
insect allergy and the sportsman, Mar, p 124
Ankle injuries
arthritis may result from injuries in youth, Jan, p 29
DMSO used to treat sprains, Aug, p 16
lacerations in hockey easily prevented, Jan, p 29
ligament tests compared, Jul, p 97
reconditioning with TNS, Jun, p 105
recurring sprains prevented by taping and exercise, Dec, p 28
the Thompson test for ruptured Achilles tendon, Aug, p 63
Arm injuries
preventing upper extremity injuries in sports, Jul, p 59
Arthritis
late effects on gymnasts' necks, Jan, p 36
may result from ankle injuries in youth, Jan, p 29
Artificial surfaces
injuries on synthetic turf less severe, Oct, p 11
Asthma
tests for exercise-induced bronchospasm compared, Aug, p 74
Astro Turf: see Artificial surfaces
Athletic care
the health supervision loop in sport, May, p 109
medical skills in high school coaches, Nov, p 115
physician's role in school sports programs, Sep, p 67
survey by Sport Medicine Council of Canada, Oct, p 37; Nov, p 27

Back
pain relieved with football flak vest, Feb, p 21
pain in young and middle-aged athletes, Apr, p 16

Backpacking
snakebite management, Nov, p 30
Ballet: see Dance
Baseball injuries
injury patterns for men and women, Mar, p 130
Basketball injuries
injury patterns for men and women, Mar, p 130
Bicycling
physiological characteristics of competitive cyclists, Jul, p 78
Bicycling injuries
in city bikers, May, p 88
Biofeedback
EMG biofeedback in exercise programs, Nov, p 61
Blood
lactate concentration affected by competition, Apr, p 13
Boating
heart rates in boat racers, Jun, p 86
rescue service for powerboat racing, Jun, p 67
safety information, Jun, p 83
types of PFDs, Jul, p 101
Body composition: see also Physiological profiles
body fat testing used frequently in professional sports, Dec, p 79
cadaver studies update body fat data, Dec, p 80
new classifications proposed for the underweight female, Dec, p 55
vigorous exercise in cold may lead to body fat loss, May, p 12
Boxing
medical supervision is unregulated, Nov, p 101
training with jump ropes, Feb, p 133
Boxing injuries
computerized records may improve safety, Nov, p 101
deaths in amateur and professional boxing, Nov, p 101
tests could increase safety, Feb, p 47
Willie Classen dies, Feb, p 20

Cardiopulmonary resuscitation
in rescue of near-drowning victims, Mar, p 25
Cardiovascular disease: see Heart disease
Cardiovascular system: see Heart
Carter, Jimmy
calls for daily physical education, Mar, p 9
Casts
electrical muscle stimulation during immobilization, Feb, p 147
fiberglass cast for navicular fractures, Jan, p 83
Children in sports: see also Adolescents
AAHPERD implements new health/fitness test, Jun, p 27
effects of running marathons, Apr, p 40
institute to study gifted children, Jul, p 22
knee ligaments repaired successfully, May, p 12
late effects on gymnasts' necks, Jan, p 36
mitral valve prolapse not an abnormality, Jan, p 21
the new physical education, Mar, p 153
spotters, thicker mats may prevent gymnastics injuries, Sep, p 20
Sunflower Project emphasizes growing with fitness, Aug, p 16
Chiropractic
George J. Goodheart joins Olympic health team, Apr, p 18
Chondromalacia patellae: see Knee injuries

Classen, Willie
death caused changes in medical supervision of boxers, Nov, p 101
dies of subdural hemorrhage, Feb, p 20
Clinics and centers
the August Krogh Institute, Jul, p 87
Cooper's Aerobics Center, May, p 114
hospitals expand cardiac exercise facilities, Oct, p 18
Lake Placid's Sports Medicine Center, Feb, p 122
Northwestern's Center for Sports Medicine, Feb, p 151
Sports Medicine Clinic of Seattle, Jan, p 129
sportsmedicine directory, Sep, p 135
Squaw Valley training center to close, Jun, p 27
standards for sportsmedicine clinics, May, p 37
Sun Valley Executive Health Institute, Apr, p 119
University of Pennsylvania Sports Medicine Center, Sep, p 117
Coaching
the hazards of coaching yourself, Nov, p 29
medical skills in high school coaches, Nov, p 115
Cold
and CPR may save near-drowning victims, Mar, p 25
hazards of snow shoveling, Dec, p 40
hypothermia meeting sets field protocol, Mar, p 25
sudden drowning syndrome, Jun, p 76
vigorous exercise in cold may lead to body fat loss, May, p 12
Commerce and sport
Bobby Hinds and the $10 million jump rope, Feb, p 135
Nautilus to star in sportsmedicine tapes, May, p 15
selling fitness through health promotion, Apr, p 119
Compartmental syndrome: see Knee injuries
Concussion: see Head injuries
Conditioning: see also Training, Fitness
patients exercise before heart surgery, Sep, p 20
program for figure skaters increases endurance, Feb, p 27
Consumer Product Safety Commission
men's and women's injuries in comparable sports, Mar, p 130
Cooper, Kenneth H.
the gospel of fitness, May, p 114
Coronary disease: see Heart disease
Cryotherapy
cryostretch for muscle spasm, Apr, p 129

Dance
ballet provides postmastectomy therapy, Aug, p 18
preventing injuries, Apr, p 69
Dardik, Irving
Olympic sportsmedicine shoots for the stars, Aug, p 76
Death
boxing deaths, amateur and professional, Nov, p 101
John Marshall, knee surgeon, dies in crash, Mar, p 29
Mal Stevens dies, Jan, p 24
myocardial bridging reported again, Jan, p 21
Willie Classen's boxing death, Feb, p 20; p 47
Decker, Mary
compartmental syndrome surgery, Oct, p 17
Diabetes
energy metabolism in long-distance runners, Oct, p 63
walking for rehabilitation, Oct, p 109
Diet: see Nutrition
Diving
principles and problems of underwater diving, Mar, p 72; Aug, p 6
tooth pain in divers, Jun, p 9
Diving injuries
ear protection for springboard divers, Aug, p 11
Drowning
CPR, cold may save near-drowning victims, Mar, p 25
deaths caused by illness, environment, Apr, p 13
sudden drowning syndrome, Jun, p 76
Drugs: see also Ergogenics
caffeine for endurance confirmed by ACSM study, Jul, p 16
caffeine improved work production in cyclists, Sep, p 35
diuretics for weight loss, May, p 30
DMSO for athletes' injuries, Aug, p 16
a factor in sudden drowning syndrome, Jun, p 76
Olympic drug abuse, Jan, p 45
Olympic drug testing, Jun, p 21
propranolol as migraine prophylaxis, Jul, p 13

Ear injuries
protection for springboard divers, Aug, p 11
in scuba divers, Mar, p 72
Elbow injuries: see also under individual sport
the elbow and tennis, part 1, Apr, p 80
the elbow and tennis, part 2, May, p 77; Jul, p 9
surgery successful in soft-tissue iniuries, Jul, p 97
Electrocardiograms
blood lipid and ECG responses to carbohydrate loading, Jul, p 68
junctional rhythms shouldn't prevent competition, Dec, p 28
a mimic of the sick sinus syndrome in a middle-aged athlete, May, p 98
R wave plus ST dip indexes heart disease, Mar, p 29
telemetry used to monitor hockey players, Jun, p 28
Emergencies
medical skills in high school coaches, Nov, p 115
medical team treats spectators at football stadium, Nov, p 8
Epilepsy
in a track runner, Sep, p 13
Equipment
bicycle size associated with injuries, May, p 88
boots for runners, Jul, p 13
bra evaluations, Oct, p 88; Dec, p 10
contact lens removal, Feb, p 38
crutches essential in lower extremity injuries, Nov, p 121
face masks pushed in hockey poster, Jan, p 23
football flak vest relieves chronic back pain, Feb, p 21
gloves, knee braces allowed in high school football, Apr, p 18
helmet reconditioning standards questioned, Oct, p 101
helmet removal in injured football players, Oct, p 119
hockey injuries, prevention, Feb, p 81
hockey players monitored with ECG telemetry, Jun, p 28
lamp radiation leaks cause erythema in athletes and spectators, Dec, p 16
personal flotation devices (survival), Jun, p 79
personal flotation devices (types), Jul, p 101
roller skaters should wear wrist guards, Nov, p 8
for scuba diving, Mar, p 72
shoe surveys: science or subjectivity? Dec, p 85
shoes sewn improperly put valgus strain on foot, Sep, p 125; Nov, p 13
shoes with high heels for runners, May, p 30
ski bindings with multimode releases may reduce knee sprains, Feb, p 26
synthetic skin covers blisters, abrasions, Dec, p 15
Ergogenics
caffeine drink tested by US Ski Team, Mar, p 26
caffeine for endurance confirmed by ACSM study, Jul, p 16
caffeine improved work production in cyclists, Sep, p 35
Exercise: see also Conditioning, Exercise prescription, Fitness
caloric costs of rope skipping and running, Feb, p 56
during pregnancy, Apr, p 40
elderly benefit from light exercise, Sep, p 19
exercise-induced anaphylaxis, Jan, p 95
fat cell size ratios same after exercise, Jul, p 15
fibrinolytic response enhanced by exercise, Dec, p 11
Framingham data in question, Feb, p 21
HDL cholesterol levels increased, Mar, p 40
HDL cholesterol in middle-aged men, Jan, p 74
HDL level raised by moderate exercise, Sep, p 35
heart size and sports, Aug, p 29
insurance doctor plugs fitness plans, May, p 18
isometric exercises may prevent strength loss, Jun, p 121
low back pain in young and middle-aged athletes, Apr, p 16
measuring anaerobic threshold simplified, Jul, p 15
and menstrual function, May, p 42; Aug, p 7, p 66
reduces cardiac mortality, Oct, p 21
ten most asked questions, Sep, p 109
walking for fitness, Sep, p 24
world-record rope skipping performance, Feb, p 65
Exercise prescription
computer helps dieters count calories, exercise, Jun, p 29
computer helps prescribe exercise, Nov, p 21
stress testing of obese subjects, Apr, p 46
stress tests: what do they show? Sep, p 44
target heart rate may be too high in MI patients, Jun, p 121
walking for fitness, Sep, p 24
Exercise Testing: see also Testing procedures
Bruce protocol useful to office GPs, Feb, p 26
computerized stress tests for cardiac and pulmonary patients, Nov, p 21
conference supports stress tests, Jul, p 18
employee fitness programs, May, p 63
fetal heart rate response to testing of mother, Nov, p 90
of obese subjects, Apr, p 46

continued

R wave plus ST dip indexes heart disease, Mar, p 29
recommended by Kenneth Cooper, May, p 114
what do stress tests show? Sep, p 44
Eye injuries
face-mask poster pushes hockey safety, Jan, p 23
treating swimmers' bloodshot eyes, Mar, p 36

Facial injuries
face-mask poster pushes hockey safety, Jan, p 23
in junior ice hockey, Feb, p 81
Female athletes
ACSM position statement on long-distance running, Jan, p 135
attitudes toward fitness surveyed, Jul, p 22
ballet provides postmastectomy therapy, Aug, p 18
bra evaluations, Oct, p 88; Dec, p 10
exercise and menstrual function, May, p 42; Aug, p 7, p 66
exercise during pregnancy, Apr, p 40
fetal heart rate responses to maternal exercise tests, Nov, p 90
how competition affects elite women swimmers, Jun, p 113
menstruation alters perceived exertion, Jun, p 29
new classifications proposed for the underweight female, Dec, p 55
profile of women college volleyball players, Feb, p 112
trained women can compete with men, Feb, p 27
women still lobbying for Olympic marathon, Jan, p 20
women on Annapurna, Mar, p 93
Fibrinolysis
fibrinolytic response increased by exercise, Dec, p 11
Finger injuries
index metacarpal fractures in karate, Mar, p 103
protecting upper extremity injuries in sports, Jul, p 59
Fitness: see also Conditioning, Exercise, Exercise prescription, Testing procedures
AAHPERD implements new health/fitness test, Jun, p 27

Exersentry™
totally accurate heart rate monitor

- Helps cardiac patients regain strength and confidence, safely.
- Reliable, durable, most precise on the market say physicians, heart patients, athletes. Thousands in use.
- Helps patients stick to their exercise prescription by electronically sensing electrocardiographic signals and displaying heart rate continuously.
- Includes alarm to signal when the patient is above or below the correct target range.
- Reimbursed under most insurance plans.
